Project Title: Mi Band Reminder

Description: The project is focused on creating a mobile application for Android smartphones that makes use of the Mi Band device which is connected to the phone via Bluetooth. The application uses the band to create a reminder through vibration. Users can schedule reminders in the app and they will be aptly reminded through the band.

Context Diagram:

Entities:

The entities of the project are as follows: Application, Android Smartphone, Mi Band,

Major Inputs:

Code for Android Smartphone application.
Design for Android Smartphone application.

Major Outputs:

Android Smartphone application

Major Functionalities:

Reminder Scheduling System on the Application.

Reminder via Vibration on the Mi Band.
